

Math in depth

Mathematics from high school to university

Hania Uscka-Wehlou, Martin Wehlou

April 2025

Referral links to our courses on UdeMy

The links beneath lead to our courses with **current best price in your region**. If UdeMy holds sales, this price should be pretty low. If you click on a link and discover that there is no sales, try our **discount coupons**. The code is the same for all our courses:

TPOT_APR25 in April 2025, **TPOT_MAY25** in May 2025, **TPOT_JUN25** in June 2025, and so on.

If you choose to purchase some of our courses, we would appreciate if you use our referral links or our discount coupons: in this way we (the instructors) get a large share of what you pay, which makes it possible for us to work full-time with new courses.

1. **Calculus 3 (multivariable calculus), part 1 of 2**, published in August 2020:

<https://www.udemy.com/course/calculus-3-multivariable-calculus-part-1-of-2/?referralCode=DB4AA455838164AEFCF3>

2. **Calculus 3 (multivariable calculus), part 2 of 2**, published in March 2021:

<https://www.udemy.com/course/calculus-3-multivariable-calculus-part-2-of-2/?referralCode=32F32A8C5BCCE2FA8C3D>

3. **Linear Algebra and Geometry 1**, published in May 2021:

<https://www.udemy.com/course/linear-algebra-and-geometry-1/?referralCode=B75248FB2F3584AB89B4>

4. **Linear Algebra and Geometry 2**, published in July 2021:

<https://www.udemy.com/course/linear-algebra-and-geometry-2/?referralCode=5E3100CD85267571C1FC>

5. **Linear Algebra and Geometry 3**, published in October 2021:

<https://www.udemy.com/course/linear-algebra-and-geometry-3/?referralCode=C22C7F8997A597E79BC0>

6. **Precalculus 1: Basic notions**, published end January (begin February) 2022:

<https://www.udemy.com/course/precalculus-1/?referralCode=BC31ADC3513CB5671594>

7. **Precalculus 2: Polynomials and rational functions**, published in June 2022:

<https://www.udemy.com/course/precalculus-2/?referralCode=69E9C040646BEBF347D3>

8. **Precalculus 3: Trigonometry**, published in November 2022:

<https://www.udemy.com/course/prec calculus-3/?referralCode=CF2BADBA886145FAF304>

9. **Precalculus 4: Exponentials and logarithms**, published in March 2023:

<https://www.udemy.com/course/prec calculus-4/?referralCode=4AE44169CA15948044F7>

10. **Calculus 1, p. 1 of 2: Limits and continuity**, published in September 2023:

<https://www.udemy.com/course/calculus-1-p1/?referralCode=34060B17F2C20E287EE3>

11. **Calculus 1, p. 2 of 2: Derivatives with applications**, publ. in March 2024:

<https://www.udemy.com/course/calculus-1-p2/?referralCode=5A15DF132CF384EF4413>

12. **Calculus 2, p. 1 of 2: Integrals with applications**, publ. in October 2024:

<https://www.udemy.com/course/calculus-2-p1/?referralCode=F6D1418117281B0B3D8A>

13. **Calculus 2, p. 2 of 2: Sequences and series**, published in April 2025:

<https://www.udemy.com/course/calculus-2-p2/?referralCode=6BD8C3C6FB018391BD56>

Our free courses on Udem y

1. **Mathematics: Completing the square**, published in February 2022:

<https://www.udemy.com/course/completing-the-square/?referralCode=78B4B7F6C5DD937526D3>

2. **Mathematics: Proofs by induction**, published in June 2022:

<https://www.udemy.com/course/proofs-by-induction/?referralCode=5C8B2F9F4F55B813E725>

3. **Mathematics: Fun tricks for everybody**, published in August 2022:

<https://www.udemy.com/course/fun-tricks/?referralCode=8B64637ABBF0DD8169B9>
